## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-10, 12-27 and 29-32 are allowed. The following is an examiner's statement of reasons for allowance:

Ogino et al., as detailed in previous Office Actions teach the recited claim limitations of:

- preparing capability information of each of a plurality of devices with regard to signal format
- designating a device that ultimately receives a signal
- collecting the capability information of every one of the plurality of devices
- producing a plurality of possible transmission paths between the receiving device and other devices, based on the capability information collected;
- identifying a device that transmits a signal and a format of the transmitted signal
- selecting one of the plurality of possible transmission paths that matches the transmitting device and the transmitted signal format for a transmission path
- issuing commands to the plurality of devices involved in the selected transmission path upon a change of the transmitted signal format
- controlling input/output of the plurality of devices according to the issued commands to establish the transmission path.

Ogino fails to teach or suggest the controller comprising a selector for selecting one of an output of the decoder and the analog terminal. This concept is known in the

Art Unit: 2614

art; however, the usage of such a reference/knowledge would necessitate a rejection under 35 U.S.C. 103(a) using Ogino.

The art of record, in light of the disqualification of the Ogino reference in any potential rejection under 35 USC 103(a) in this application, would therefore fail to teach or suggest the particular combination and interconnection of elements associated with the aforementioned method and corresponding apparatus, as taught solely by Ogino, for controlling connections between devices. Consequently, claims 1-10, 12-27 and 29-32 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
